At the time, there was a series I was so into that I stayed up all night just to watch the first half of the last episode
But I was wrong

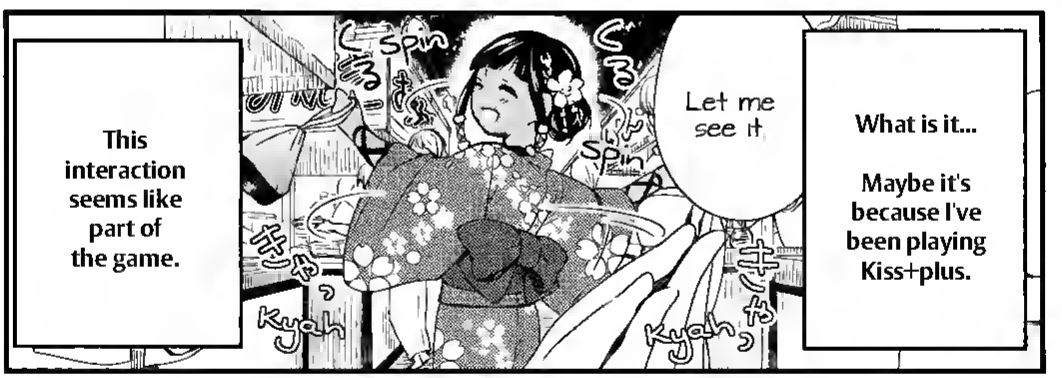
But Sui-chan, I didn't know you had a yukata.
Ah, no, it's nothing!
Whoops, that was close!

I don't want to ruin my standing as a wonderful neighbour.
Huh
You splurged and bought one?
You're really into it, huh.
Hmph!
It's brand new, huh.
I've got to keep the fact that I'm really insensitive a secret.



This interaction seems like part of the game.

Maybe it's because I've been playing Kiss+plus.

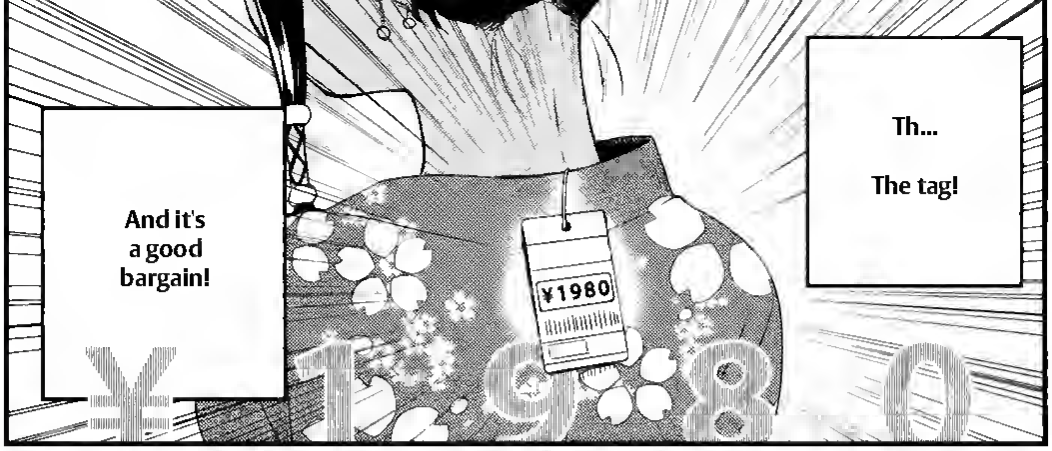
You've got your hair in a bun today, huh.
Ahh, Sui-chan.



And it's a good bargain!

The tag!

Which one?

Wait, Sui-chan wouldn't do that.
Ah, but maybe she was showing off and lying that it was expensive.
What should I do...
Should I tell her?
Don't tell
Tell
Hmmm.
I should be careful here...
The more time that passes before you notice this kind of thing, the bigger the shock is when you find out.

Careful, careful, so she doesn't notice.

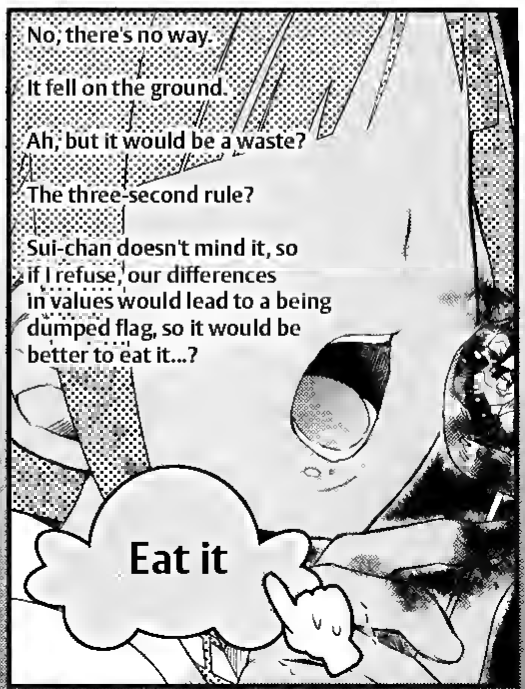
Ah! I know!
Sui's making a joke!
When someone that normally doesn't do that kind of thing makes an occasional joke, it's hard to notice.
My waifu is really that honest, after all.
Ah, I said waifu again.
Don't eat it



No, there's no way.
It fell on the ground.
Ah, but it would be a waste?
The three-second rule?
Sui-chan doesn't mind it, so if I refuse, our differences in values would lead to a being dumped flag, so it would be better to eat it...?

Welcome!

Too bad you didn't win the PS4.
I spent all my money on the raffle earlier, so.

Huh?
Isn't that your older sister over there, Yayoi-chan?
Eh?
Doubts that I would never even have considered before are surfacing one after another.
I don't want this thing...

Yayoi-chan, where should we go next?
Fabam
Hmmm.
Kabam

But in Kiss+plus, it would almost be time for the fireworks → confession event...

Hello.
C-Could this be...
Um, well
What is it?
Yayo!
Little sister route appears!
I want to walk around the festival with you

Branch point!
Yayoi normally acts cold toward me, but she occasionally says things like that, I really can't handle the cuteness.
I'm sure married life would involve a lot of spanking, but in a way that's an ideal married couple.
I didn't expect the little sister route to come up...
I-It's not like I want to see the festival with you or anything.
Go with your little sister

Way to go, Tada-san!
Of course my first choice is Sui-chan!

You're thinking of doing something strange, aren't you?
Meaning I should choose carefully here...
Whoa, I'm kind of curious about this! First we'd need to get to know each other... I know!
It would be like a marriage interview! A love starting from nothing. How nice!
A Hina-chan route?
Whoa, thinking about it like that, I can't decide.
Which route should I pick...
Go with your little sister's friend
